

ITAR/EAR ADVISORY AND ACKNOWLEDGEMENT FORM

Your company is responsible as the exporter of record when an RFQ or any technical information is sent to DirectPCB.

Your company must consult the appropriate agencies which control exports for further information. These agencies are the U.S. Department of State, Directorate of Defense Controls (for ITAR) and the U.S. Department of Commerce, Bureau of Industry and Security (for EAR).

This document is to advise your company that DirectPCB:

- Utilizes non-U.S. persons/Foreign Persons
- Does not accept the transfer of ITAR export-controlled articles or technical data.
- Does not accept the transfer of "600" series export-controlled articles or technical data.
- Does not accept the transfer of ECCN 2B998, 3A101, or 3A611 export controlled articles or technical data.

DirectPCB ***CANNOT ACCEPT*** ITAR controlled or higher controlled ECCNs.

DirectPCB can only accept orders related to product controlled under US Dept. of Commerce ECCN EAR99.

All quotes or manufacturing of orders are an offshore export to Asia—***primarily China.***

DirectPCB will notify you at time of order the Country of Origin and the manufacturing facility used to build your product.

Contact us at anytime to learn where any past or present orders are being manufactured—it is your responsibility to know.

COMPANY END-USE STATEMENT

Specifically, we make the following certifications and assurances:

We certify that we will not directly or indirectly through DirectPCB export, re-export, transmit, or cause to be exported, re-exported or transmitted, any Restricted Item to any country, individual, corporation, organization, or entity to which such export, re-export, or transmission is restricted or prohibited.

We certify that the Products ordered from DirectPCB will be used to support only civil end uses. The Products will not be used to support any military end use, incorporation into any military item, or military applications including but not limited to the operation, installation, maintenance, repair, overhaul, refurbishing, development and/or production of any military item or for any military end uses. Furthermore, we will not use DirectPCB for any Products that the U.S. government prohibits use for any nuclear, biological, or chemical weapons, or missile systems.

We acknowledge that we will indemnify and hold DirectPCB harmless for all damages, costs, fines, penalties, attorney fees, and all other expenses arising from a U.S. Government claim or demand for the transfer of restricted or prohibited items.

We hereby acknowledge receipt of this notification:
